

K-Love is well above the other Christian stations. Its my freedom of choice to select this station as I do not like to hear the negative sexual talk and do not like to subject it to my kids and family. K-love makes a big impact on young listeners and sets them on the straight road of life thru Gods teachings. Do not take this away, you will be doing a disjustice to the communities. We need to do all we can to keep stations like this seperate from other stations that allow non christian information and that encourages unethical conduct and language.
